

ULTIMATE PPF SOLUTION

FOR THE DURABILITY ISSUES OF PVC CARBON WRAP FILM

REAL CARBON

DEFINITE EXPRESSION OF DYNAMIC & IMPACT

'Real Carbon' upgraded to a subtle black satin finish, has been renewed with the goal of expressing 'heavier dynamic' while satisfying the original purpose of PPF and preserving the realistic surface texture like real carbon.

PRODUCT PERFORMANCE

Model	Material	Aesthetic		Resistance				Self-Healing	Thickness		
		Gloss	Clarity	Solvent	Stone-Chip	Yellowing	Stain		TPU	Adhesive	Top Coating
CARBON GLOSS	TPU	Excellent	Excellent	Good	Good	Good	Good	Good	8mil	1.2mil	0.6mil
REAL CARBON	TPU	—	Excellent	Good	Good	Good	Good	Good	6mil	1.2mil	0.6mil

* The comparisons above are just for reference. The test results may vary according to vehicles and test conditions.

CARBON GLOSS

PERFECT HARMONY OF SOPHISTICATION & DYNAMIC

'Carbon Gloss' upgraded from 'Sophisticated Dynamic' for renewal, presents the ultimate solution for the many problems (discoloration, surface deformation, decrease in brightness) of PVC wrapping films and the difficulties in construction (peel off, tensile force) of existing carbon PPF products.
